

There are around 100 outdoor sculptures to be discovered at YSP. How many will you spy today?

Pick up a map and challenge yourself to find all the sculptures on the other side of this sheet. Enjoy a walk through the Formal Gardens and down to the lake. Stroll through the Country Park on your journey back to the Visitor Centre.

How far to spy every sculpture? 3.5km / 2 miles (allow approx. 90 minutes).

Don't worry if you don't find all the sculptures today. Come back and visit again.

What is it like underfoot? Gravel and grassy paths with inclines. Can get muddy in wet weather.

When you discover a sculpture...

1 **Move** all around it.

Take it in from all sides.
Can you see through it? Under it? Over it?

2 **Look** closer and listen carefully.

What colours and patterns can you see? Can you feel the wind blow through it?

3 **Think** about how the sculpture makes you feel.

What if it was bigger or smaller?
Or made from something completely different?

I spy...

- something bigger than me
- something that makes me feel like a giant
- something that makes a noise
- something I can see through
- something that inspires me
